

My name is Stephanie Knapke and I am a full time Registered Nurse at Our Lady of the Visitation School. I would like to welcome your child to Preschool, and I am excited to meet them and help make their days at school successful!

The State of Ohio requires certain health and emergency information *prior* to the child's first day of preschool attendance, unless otherwise noted. The required forms are attached and include:

- **Emergency Medical Authorization and Health History Report** This will be sent home the first week of school. (This is a two sided document!)
- **Immunization Record (Provider to supply)** ***Most doctor's offices will fax the immunization records upon your request.* You can simply call and ask for a copy of their immunizations to be faxed.
- **Healthcare Provider Report (Attached)** Form must be received by September 26, 2022 (within thirty days of the first day of attendance) ***Oftentimes, the pediatricians' offices can fax this back to me upon completion.*
 - For children three years of age and older, a physical examination must have been completed within twelve months of the first day of attendance and annually thereafter. The form expires annually.

Return the completed forms on the first day of school, or sooner via fax. Failure to provide an updated Healthcare Provider Report, as mandated by state law, could result in the exclusion of your child from school.

Will your child require any medication during the day? Our Lady of the Visitation requires a doctor's order for both prescription and over the counter medications. Forms are available on the website under the Nurse/Absences tab or in the nurse's office.

The required health and emergency information is in the best interest of every child attending the preschool program. Such requirements provide for the prevention and control of communicable diseases, appropriate management of children with special health needs, and access to parents/guardians or identified responsible adults in cases of emergency. If you have any questions or concerns or would like to discuss your child's special health needs, please feel free to contact me.
