AUG'S BLOG

Visitation Families,

Happy early St. Patrick's Day! Did you know St. Patrick is attributed with using the three-leaf clover to explain the Trinity (Father, Son and Holy Spirit)? Another little known fact... St. Patrick was born in the Scotland/Wales area. He is, however, credited with bringing Christianity to Ireland.

Report cards will be emailed home on Friday.

Stephen Smith will be here on March 27th at 7:00 p.m. in the auditorium to address parents. Mr. Smith will speak to grades 5-8 during the school day. Please make plans to attend. He will be sharing information on how to protect your child while using social media.

I would like to take a minute to thank our playground volunteers. We have had some nasty weather and they continue to show up in rain, sleet or snow!

Keep working on those Lenten promises!

Blessings,

Spely M. Aug

COOK'S CURRICULUM CORNER

Our school will be hosting Wellness Week the last week of March (3/27-3/31). Students in grades preschool-3rd grade will focus on physical health topics like exercising and making healthy choices in physical education classes. Students in grades 4-8 will have various speakers on mental health topics that pertain to their age level. See the attachment at the bottom of the newsletter for more information on Wellness Week. ***Parents-we are inviting you to listen to Speaker Stephen Smith who will discuss the dangers of social media and how it influences your child and their life. There is a flyer attached to this newsletter regarding his presentation at 7:00 p.m. on March 27th.***

Students in grades K-8 can practice math facts on www.mathscore.com. This free online platform is adaptive to students' math abilities. This means that the program provides students with challenging, yet appropriate facts at their level and while continuing to track student progress and providing new skills as students master concepts. As a parent, you can sign up for a parent account and track your child's progress.

Check out the flyers attached for after school enrichment activities. Chess, coding, and STEAM clubs are great opportunities for students to extend thinking while also engaging socially with friends at school.
